## CREAMERY INCORPORATION

Another Move to Develop State Resources.

Yesterday there was another creamery incorporation perfected and the articles filed with the Secretary of State.

The capital stock of the company is \$100,000 divided into as many shares, at a dollar a share and the creamery will be located in Mas-n Valley. The corporation is formed to manufacture and deal in butter and cheese and condensed milk and all other manufactured products of milk; to build purchase and acquire lands, buildings, factory and machinery for the manufacture, transportation, storage and sale of butter and cheese and condensed milk and all other manufactured products of milk; to deal in farming implements and machinery, land and water, water rights and irrigation ditches and canals and to deal in live stock and merchandise of all kinds.

## The Dredging Scheme.

For many years the Rae dredging machine has been wrestling with the bed of the Carson river with indifferent success, but it stuck to the work and there is little doubt of the ultimate outcome. The Enterprise says:

Some new plans have been formulated for the working of the tailings in the bed of the Carson river by the Rae Dredging Company. Mr. Rae was on the Comstock yesterday and concluded a contract with A. J. McCone of the Fulton Foundry for machinery for a mill to be erected at Dayton for the reduction of tailings. The first Rae dredge was provided with suction pipes for the purpose of raising the tailings from the bed of the river. The pipes became clogged, however and the process proved impracticable. On the dredge now in use scoops do this work. Another improvement is to be made also. The boat containing the dredging machinery is to be done away with. A railroad is to be built upon the river and the machinery built upon a car which will run upon it. The tailings are first to be concentrated and then milled. The preparations are being made to insure at least a fair test of the dredging proposition and if results are satisfactory a new industry of considerable proportions will have been established on the Carson river.

## Big Prizes for Live Stock.

Chief Baccanan, of the World's Columbian Exposition Live Stock Department, has sent out about 3,000 copies of the live stock premium list of the various fair and breeders' association of the country, and is receiving responses which show that the live stock exhibit at the exposition will be something tremendous. Besides the large premiums offered by the Exposition for a live stock exhibit, all the various breeders' associations are offering large prizes, notably for shorthorns, Herefords and Jerseys, as an evidence of the widespread interest taken in the live stock show. A. E. Mansel, of Shropshire, England, offers a prize of \$500 for the best American bred Shropshire ram. The State of Illinois offers \$40,000 in premiums for live stock; the Clydesdale horse breeders offer \$5,000 extra prizes; the cattle associations offer extra prizes as follows: Galloway, \$3,000 short horn, \$6,000; Hereford, \$5,000; Jersey, \$10,000 and Holstein, \$10,000. The swine, sheep and dog breeders also offer extra money prizes. The money prizes to be paid for live stock amount to \$250,000 or more, which of course includes the sum of \$150,000 voted by the Exposition company for premiums in that department. The Exposition buildings for the accommodation of live stock will cover thirty acres.

## There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't it is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely at your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
